

Risk Disclosure Policy

This policy provides you with information about the risks associated with Forex Trading, which you may invest in through services provided to you by EF Global Limited (www.eightforex.com) incorporated in the Republic of Kazakhstan with Business Identification Number 210640011951 and has been registered as Financial Services Provider on the 03/07/2021 with the Ministry of Economy.

Our Services

Any transactions in which EF Global Limited offers you leverage or allows you to enter into short transactions, shall be considered in this Risk Disclosure.

All of these products carry a high degree of risk and are not suitable for many investors. This notice provides you with information about the risks associated with these products, but it cannot explain all of the risks nor how such risks relate to your personal circumstances. If you are in doubt, you should seek professional advice.

It is important:

- that you fully understand the risks involved before deciding to trade,
- that you have adequate financial resources to bear such risks, and
- that you monitor your positions carefully.

Trading involves risk to your capital. You should not invest money that you cannot afford to lose, however, you cannot lose more than the equity in your account.

Contract For Difference (CFD)

Contract For Difference means you are not buying the underlying asset, but, rather, purchasing a contract to settle the difference in the initial and ending price of the asset.

When trading, you generally trade on margin, which means you only have to deposit a small percentage of the overall value of your position. This is known as “Leverage”, and even small market movements may have great impact, negative or positive, on your trading account.

If the market moves against you, you may sustain a total loss greater than the funds invested in a specific position. You are responsible for all losses in your account up to the equity in your account.

Before deciding to trade on margin, you should carefully consider your investment objectives, level of experience, and risk appetite.

CFDs involve greater risk than investing in on-exchange products, as market liquidity cannot be guaranteed and it may be more difficult to liquidate an existing position.

The characteristics of CFDs can vary substantially from the actual underlying market or instrument.

CFDs are complex instruments and come with a high risk of losing money rapidly due to leverage. You should consider whether you understand how CFDs work, and whether you can afford to take the high risk of losing your money.

Nature of Trading

Trading is highly speculative in nature and carries a high level of risk and may not be suitable for all investors. The high degree of leverage can work against you as well as for you. This means that you may sustain a total loss of your funds and that you should always consult a financial professional before making any investment decisions. No representation is being made that any account will or is likely to achieve profits or losses.

Before you Trade

Before deciding to trade you should carefully consider your investment objectives, level of experience, and risk appetite. The possibility exists that you could sustain a loss of some or all of your initial investment and therefore you should not invest money that you cannot afford to lose. You should be aware of all the risks associated with trading and seek advice from an independent financial adviser if you have any doubts. Clearly understand this: Information contained within www.eightforex.com is not an invitation to trade any specific investments.

Future Gain

Risk Disclosure Policy

Trading requires risking money in pursuit of future gain. That is your decision. Do not risk any money you cannot afford to lose. Do not act on information displayed without advice from your investment professional, who will verify what is suitable for your particular needs and circumstances. Failure to seek detailed professional personally tailored advice prior to acting could lead to you acting contrary to your own best interests and could lead to losses of capital.

Past Performance

Past performance is not indicative of future results. Individual results vary and no representation is made that you will or are likely to achieve profits or incur losses comparable to those that may be shown. You acknowledge and agree that no promise or guarantee of success or profitability has been made between you, and EF Global Limited.

By using the EF Global Limited, you acknowledge that you are familiar with the above-mentioned risks and that you are solely responsible for the outcomes of your decisions. EF Global Limited accepts no liability whatsoever for any direct or consequential loss arising from the use of www.eightforex.com. It's to be noted carefully in this respect, that past results are not necessarily indicative of future performance.
